About JobWinner

JobWinner is an AI-powered platform designed to boost job seeker employability. It supports every step of the job search process – from resume building to interview preparation.

Solution for Career Services

JobWinner is a flexible platform that can be integrated into your career services offerings, with optional white-label branding. You also get access to user usage metrics and insights on job application activity.

What You Get with JobWinner

Boost Job Placement
Equip job seekers with AI-powered resources to improve their job search results.

Monitor and Optimize Job Application Activity
Get detailed insights into user activity, job applications by company and industry, and where users may need more support.

Streamline Career Services
Reduce manual workload and free up your team to deliver high-impact initiatives

AI Tools for students/clients

AI Resume Builder
Creation of optimized job-specific resumes for each job application.

Interview Prep
Interview practice with job-specific questions and suggested answers

Cover Letter Generator
Tailored cover letters generation for each position in just seconds.

Job Tracker
Centralized panel to monitor, organize, and follow up on job applications.

Job Match Insights
Job match compatibility score with top strengths and areas of improvement for each role
